

Missionaries to Sri Lanka

Coming To
Our Church:

Prince & Suzana Mathiasz

The Mathiaszes received missionary appointment in May 1982. They and daughter Natasha arrived on the field in July 1983. During their first term on the field they spent much time getting the work started: holding evangelistic meetings, soul winning, outreach efforts, registering the church, building and dedicating the first ever UPC building (national headquarters church and office) in Sri Lanka. They continue to establish the work, conduct many training seminars, buy more properties and build new church facilities. They have opened a Bible college and have rebaptized numbers of Trinitarian pastors and churches. They are developing a new national training center as well as a family camp project.
