Biography

The Dominguezes received their missionary appointment to Peru in 2012. During their first deputation they witnessed over 1,400 people receiving the Holy Ghost. While in Peru they were involved in crusades and revivals where over 800 received the Holy Ghost. Geno was instrumental in reopening the Bible institute in Trujillo, and eighteen students completed their first year studies. During the floods of 2017, the Dominguezes coordinated with Compassion Services International to get food and water to people who were left

homeless and also repaired several churches that were damaged. They had 240,000 Bible studies and tracts printed, in addition to about 10,000 books on Pentecostal doctrine. Upon their return to the field, they will base in Panama for their new role as Regional Evangelists to the Central America/Caribbean and South America regions. They will be preaching and teaching in countries within the regions.
