---

### Biography

Mark and Robin Shutes received their appointment to Belarus in 1996. In 2002 they received additional appointment to the Baltic Republics and the directorship of evangelism for the former Soviet Union in 2006. They currently work from their base in Riga, Latvia, where they continue to train the associates in missions teams and nationals to bring the gospel and establish churches in the cities and villages of each country. When they first arrived on the field as associates in missions in 1993, there were only two converts in the country of Belarus. Since that time they have seen God multiply that work as they branched out into the Baltic Republics, thereby opening the countries of Latvia and Lithuania. In 2007

regional missionaries were sent out of Belarus to Ukraine, Russia and Poland. The Shuteses worked very closely with Brother Turner to help launch the work in Kyrgyzstan and spread the work into the other Central Asian nations. In the coming years they will continue to build and multiply teams of people to evangelize the nations of Belarus, the Baltic Republics and the entire former Soviet Union. The Shuteses and Nichollses worked very closely with Brother Turner on developing a church growth program called "Revival By Design" to help facilitate the great revival that is happening in the Commonwealth of Independent States & Baltic Republics.
