Biography

Darry and Kathy Crossley's missions involvement began in Argentina in July 1974 under the Overseas Ministries program. Their initial responsibility was to help set up the Bible school program in Buenos Aires. They taught in the Bible school, set up national financial books, pastored in San Justo, and held revivals and seminars. They returned to the States in October 1975 to receive full missionary appointment. Through the years Brother Crossley held every office on the national board and pastored the Central Church. Brother Crossley was elected as president of the UPC of Argentina in 1982. He was kept very busy administrating and coordinating the national work, teaching in seminars and in the Bible school and spent about

half of his weekends ministering in the interior of the country. In September 2002, the Foreign Missions Board appointed Brother Crossley the regional director for South America. He now oversees the churches, missionaries, and national leaders in the ten nations of the South America Region. He also serves as the President of the UPCI of Bolivia and as President of the UPC of Uruguay.
