- children and youth ministries
- puppets ministry
- music ministry

- preaching
  - video and photography
- 

### **Biography**

The Groves were appointed to Sudan/Kenya in 2004 and arrived in Nairobi, Kenya, in January 2009 where they taught in the Bible school. Brother Groves serves on the general and executive boards of the UPC of Kenya. They have been involved in travelling throughout Kenya training pastors and saints in the principles of leadership, evangelism and church planting.

Sister Groves and their three children Mary-Elizabeth, Patrick Warren Jr. and Joash, have also been very involved in training and promoting children's and puppet ministries among the churches in Kenya. The children established a youth outreach ministry out of the headquarters church in Nairobi. As a result, they have been invited to minister in some local high schools, among other things.

As a result of all these activities, they have personally seen over 400 souls filled with the Holy Ghost, several notable healings and many people baptised in Jesus' name during crusades, conferences, Bible studies and regular services. They also worked with a Sudanese refugee group in Nairobi and saw several of them filled with the Holy Ghost and baptised in Jesus' name.

The Groveses were involved in successfully registering the newly formed UPC of South Sudan in 2011. At present we currently have two churches and four pastors in that country. They hope to relocate in the very near future to South Sudan in order to help establish this infant church for the glory of God by planting new churches and training nationals.
