

# Adventures in Belize

## Revival reports from Dwayne and Linda Abernathy

Greetings from the deputation trail! We are so thankful for what God is doing for us now that we have re-started our travels.

First I want to give thanks to the Lord and all of you that have prayed for Linda during her terrible battle with Covid-19. She spent 59 days in the hospital in Texarkana, Texas. 23 of those days were spent on a ventilator.

Thank God for where she is at now! She is doing much better and her doctor said that here recovery was miraculous. We are thankful for a God that hears our prayers.

This was the moment that she was released from the hospital, our Sam was so glad to see her!

At the same time things in Belize have been going well! I give thanks to these three men that have helped see to that.

Associate Missionary  
Danny Becerra, Belize  
District Supervisor  
Guillermo Henriquez and

Aimer Jerry McKinney. Because of Covid things have been slower but these men and all of our leadership have been doing an incredible job.

Even with the pandemic Bro Danny and Bro Guillermo started a new church in the northern town of Corazol Town, a new place for us! Thank God for good people with a heart for the Kingdom.

Thank you for your prayers for us and Belize!
