Due to the current situation, the special conference that was to be held in March has been postponed until next year.

*Thank you for your sacrificial giving. We appreciate the burden that you have for Global Missions. We thank all who make our ministry possible with your prayers and finances. May God richly bless you!*

***Please especially remember the Cuban people in prayer.***

**Food is scarce in Cuba.** There are many long lines and have been clashes among the people waiting for food.

**We are helping the pastors and they, in turn, are helping the members of their congregations, as best they can.**

One pastor went out and bought fruit and his wife and members of their church made fresh squeezed fruit juice. They gave that fruit juice to over 500 families in their small town and areas around them. They were able to minister to the people that received it. The people were very thankful.

**We began traveling on deputation in January.** We are so thankful for each district that we have visited for every new Partner in Missions!

Like many of you our travels have been stopped. We have been blessed and are so thankful for the Mission Services that we have been able to participate in online. We have had one day of deputation since states have begun to open up.

**During this time we have continued to teach online.**

We have taken advantage of this down time to send teachings to Cuba, teach Bible school via Zoom in Tobago, preaching and teaching in Spanish in Canada, Mexico, Puerto Rico, France, the United States and other places. It has also been an honor for us to participate in several prayer services dedicated to prayer for all missionaries.

*We are looking forward to the time when our travels begin again but are very aware of the great need for patience during this difficult time.*
