Revival Continues to sweep across the nations of ASIA!

The Asia Region has witnessed steady growth this past year. The numbers are up in virtually every statistical category. We are excited to report that by the end of this latest reporting year, the Asia Region reached a **major milestone by surpassing a half-million constituents for the very first time!** To God be the glory! We attribute this to the hard work of our great missionary team (both full time missionaries and short term missionaries), and to the great national leadership in each country.

***Myanmar general conference and an exciting church dedication built mostly with local funds!
Thank you for supporting us with your prayers and giving! LYNDEN & KATHY SHALM PIM #224***
