

# THE SMOAK SIGNAL OF TANZANIA & BURUNDI

Global Missions

36 Research Park Court

Weldon Spring, MO 63304

2<sup>nd</sup> Quarter 2019

As we traveled the churches of Mississippi, Alabama, Georgia, Tennessee, Kentucky, Indiana, Illinois, Missouri, Arkansas and Oklahoma in the past three months, we have rejoiced to see the growth in the churches. Pastors and saints have welcomed us with love (and some fabulous gift baskets). They have shared our burden and vision for the work of God in Tanzania and Burundi by praying, partnering with us financially and supporting our special projects.

Thank you all for your love for the Kingdom of God and for joining together with us in the body of Christ to take the whole Gospel to the whole world.

*Richard and Pamela Smoak*

While we are traveling in North America, the Tanzanians and Burundians are continuing the work in the churches, baptizing, preaching and performing the daily administrative duties of the national church.

This is what they have been trained to do, reach their own countries with the Word of God and the hope of salvation.

Also, the month of June begins a new Bible school course at the Mwanza and Iringa locations of the E. L. Freeman Bible Institute in Tanzania.

Pray with us that we can again open the Bible school in Burundi.

Follow us on Facebook @United Pentecostal Church of Tanzania and on Instagram @Smoak\_Signal.
