- playing drums in church

Biography

The Morenos were appointed to Greece in 2014. They currently pastor the central church in the Athens metro. Joshua has served in the Europe Region in youth ministries and, most recently, men's ministries. He launched a minister-in-training program in the Athens area that will be pivotal in training laborers in the country. Christene enjoys working with the younger generation in Athens, from the youth down to the children, igniting a passion for God in the next generation. She also leads the ladies' ministries and has spoken at ladies' events. They have also ministered in various other countries in revivals, youth conferences, altar working seminars, Bible schools, and family/marriage conferences. When returning to the field, they hope to see more ministers trained in Athens to use as a launching pad to start churches countrywide.
