Missionaries to South America

## Ministers Conference - Ecuador

It was our privilege to have been in Quito, Ecuador for their national ministers congress.

Several hundred pastors and ministers gathered together for the business sessions and national board meetings.

There was a beautiful spirit of unity and purpose among the ministers. The reports were outstanding of how the churches are growing, new churches that are being planted and the move of God is very evident throughout the country. 12 couples were ordained into the ministry and the hand of God was clearly upon their lives.

God is moving in the country of Ecuador. It is exciting to see what is taking place in Ecuador!

### Thank You!

Sis. Sponsler and I want to thank each of you for your continued support for ourselves and for South America. The region is in great growth right now and we want to see even greater revival take place.

Last year the South America region enjoyed a growth of over 71,000 constituents. There were many dynamic reports of miracles, and divine moves of God in many areas of the region. You enable this to a great degree.

Thank you for helping us reach an entire continent. And thank you for your continued support.
